Your assignment is to listen to the album of your choosing and write a short paper describing it. There are many angles to write from, what I do not want is a review of the album. Instead, take it as an opportunity to express your comfort level with rap music. **Is it the beats**, Who was the producer for that track? Is it the storyline? (please give De La Soul a chance). Is it subject matter? Is it all fiction? . . . just a few ideas.

Please use proper citation when referencing songs. See below for example:

*No Malcolm X in my history text / Why is that? / Cause he tried to educate and liberate all blacks / Why is Martin Luther King in my book each week? / He told blacks, if they get smacked, turn the other cheek*ⁱ

*As real as it seems the American dream / Ain't nothing but a calculated scheme / To keep us locked up shot up and back in chains / To deny us our future to rob our name / Kept our history a mystery, but now I see / The American dream wasn't meant for me*ⁱⁱ

*No one in the world loves me / I'm headed for danger / Don't trust strangers / Put one in the chamber / Whatever I'm feelin' is anger / Don't wanna make excuses / Cause this is how it is / What's the use? / Unless we're shootin' / No one notices the youth / It's just me against the world*ⁱⁱⁱ

I felt like it should have been women all over the country talking about, 'Tupac couldn't have done that.' And people was actually asking me, 'Did you do it?'"^{iv}

He went from a nobody nigga / To the big man on the block / He's mister local celebrity / Addicted to move a key / Most hated by the enemy / Escaping the luxury / See, first you was our nigga / But you made it / So the choice is made / Now we gotta slay you^v

And they say it's the white man I should fear / But it's my own kind doin' all the killin here^{vi}

"I'm not sayin' I'm gonna rule the world, or I'm gonna change the world, but I guarantee that I will spark the brain that will change the world."
