

Table 3. Mean number of nodules produced for each treatment with their standard of deviation. *And results of t-tests comparing*

Treatments	Avg. # of nodules ± Std. Dev.	Significant
4 drops	24.858 ± 11.47	no
8 drops	88.8 ± 45.9	yes
16 drops	73.36 ± 19.5	no
24 drops	69.16 ± 33.9	yes

at what level of significance?
