

Create a Table in Nvu

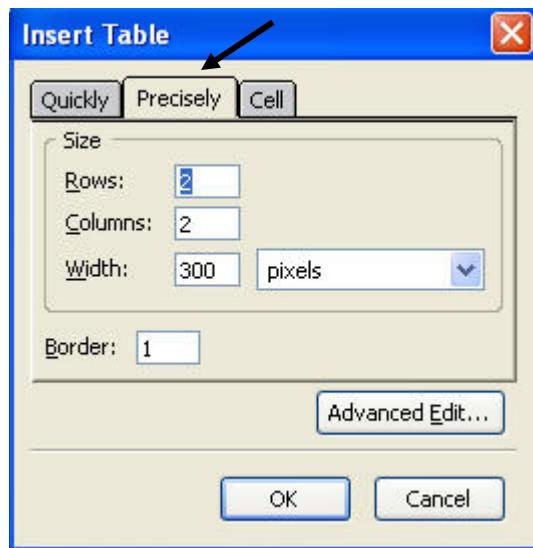

1. Click on the “Table” icon on the tools bar.

NOTE: The “Insert Table” box will appear.

2. Click on the “Precisely” tab.

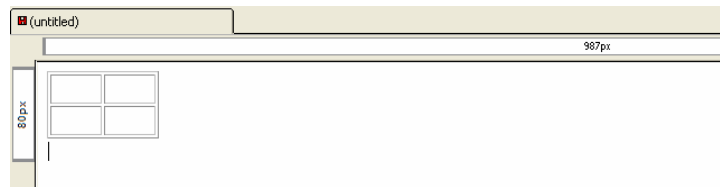

3. Enter the number of rows, columns, table width (72 pixels equal one inch), and border padding.

NOTE: Border padding is the space between the border of a table and the content within the table.

4. Click on “OK.”

NOTE: In the “Normal” view your table will appear as follows:
